

BREAKING LANGUAGE BARRIERS WITH SEAMLESS

TRANSLATION AND CAPTIONS

Unlock the true potential of your events. Break down language barriers and transform your gatherings into global experiences. Say goodbye to cultural disparities and technical hiccups. Let success take the spotlight.

Breaking Language Barriers

Imagine hosting an international event where every attendee, regardless of language or hearing ability, feels fully engaged and included. Sounds promising, doesn't it?

Now, consider this scenario: a speaker passionately delivering a message in a language unfamiliar to the majority of the audience. Inevitably, misunderstandings and missed connections arise, leaving a sense of dissatisfaction in the air.

If the hurdles of cultural disparities, language obstacles, and technological glitches have left you weary in your role as an event organizer, your solution has arrived.

VIDEO.TAXI steps into this narrative, addressing these challenges head-on and ensuring that your events are not just heard but understood. A revolutionary platform designed to shatter language barriers and transform events into truly global experiences.

The Power of Real-time Translation and Captions

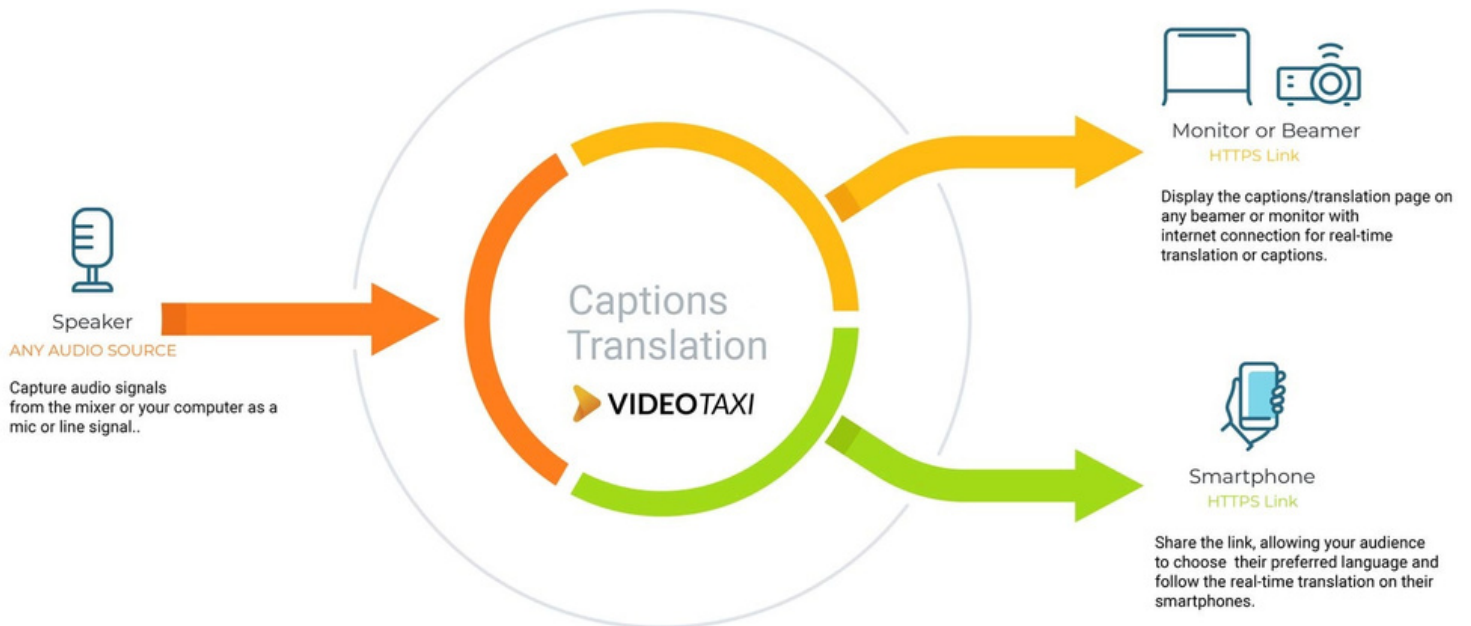

Seamless Translation for Speakers, Real-Time Captions for Audience

Picture speakers effortlessly presenting in their most comfortable language or their mother tongue, allowing them to express themselves authentically and convey emotions.

The power of choice lies in the hands of your attendees. Envision them opening their smartphones, selecting their preferred language, and seamlessly immersing themselves in the event.

This isn't just about language; it's about creating a personalized and culturally sensitive experience for every individual.

Behind the Scenes

How It Works

As an organizer, you obtain a link, and with the click of a button, real-time captions appear on the event screens, transforming the ordinary into the extraordinary.

By sharing the link as a QR code with your audience, your attendees will start pulling out their smartphones, not just to capture moments but to choose their own adventure. The adventure of language selection, where every tap brings them closer to a personalized, immersive experience.

Hybrid Events and More

Livestreaming and On-Demand Options

As the event concludes, the story continues. VIDEO.TAXI extends the magic beyond the physical space with live streaming and on-demand videos. The echoes of your event resonate globally, making an enduring impact that transcends borders.

The transcriptions created during the event become powerful assets, while processing them in AI tools to enhance content creation and accessibility. Your event's impact lingers on after the final applause.

In a world where data is king, VIDEO.TAXI places a crown on your privacy and security. Feel confident in providing real-time access to translations, knowing that sensitive information is safeguarded with the highest standards of data protection: ISO 27001.

All-in-One Solution

All Functionalities at a Glance

Translation and Captions for On-Site Events

Break down language barriers and transform your gatherings into global experiences.

Live Streaming with Multilingual Captions

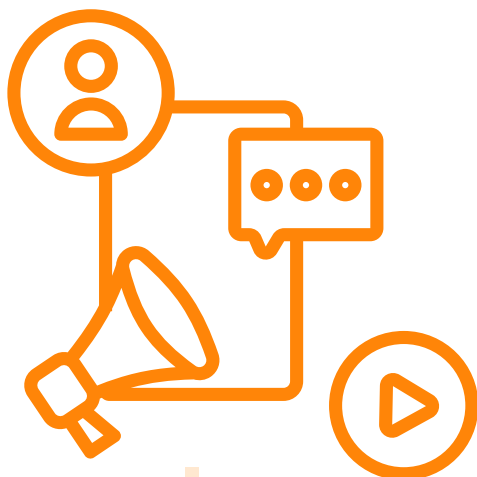

Reach your audiences globally, amplifying your reach, impact and accessibility.

On-Demand Videos with Multilingual Captions

Offer a lasting legacy, allowing your event to resonate with individuals worldwide, long after the live experience.

Process Transcriptions with AI Tools like ChatGPT

Transform transcriptions into powerful tools for content creation such as, writing summaries, headlines, description, and SEO keywords, turning your event's content into a masterpiece that captivates audiences far and wide.
